Independent Auditor's Report

Members of the Board of Directors
Capital Region Water

Report on the Financial Statements

We have audited the accompanying financial statements of Capital Region Water (CRW) as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise CRW's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of CRW as of December 31, 2017, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the historical pension information on pages 37 through 40 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise CRW's basic financial statements. The combining schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for the purposes of additional

analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining schedules and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining schedules and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 26, 2018, on our consideration of CRW's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of CRW's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering CRW's internal control over financial reporting and compliance.

Increase in deferred inflows of resources for pensions	483,726

Net cash provided by operating activities \$ 14,085,330

The accompanying notes are an integral part of these financial statements.

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

1. Summary of Significant Accounting Policies

The Harrisburg Sewerage Authority (Sewerage Authority) was incorporated June 3, 1957, under the provisions of the Municipality Authorities Act of 1945. On December 1, 1987, the Sewerage Authority's Articles of Incorporation were amended to change its name to the Harrisburg Water and Sewer Authority (Water Authority). On January 30, 1990, the Water Authority filed Articles of Amendment with the Pennsylvania Department of State to change its name to The Harrisburg Authority (Authority), also broadening its purpose and extending the term of its existence. In March 2014, the Authority filed Articles of Amendment with the Pennsylvania Department of State to change its name to Capital Region Water (CRW). The purpose of CRW is, among other things, to engage in public works projects relating to the ownership and operation of the water system and wastewater treatment and conveyance systems. CRW also maintains responsibility for winding down certain administrative, contractual, and minor operating activities of the previously owned resource recovery facility.

CRW has evaluated organizations, activities, and functions that should be included in CRW's financial statements. The basic criteria considered in making this determination include appointment of the Board of Directors, financial interdependence, and potential to provide specific financial benefits to, or impose specific financial burdens. CRW has not identified any entities that should be subject to evaluation for inclusion in CRW's reporting entity.

The City of Harrisburg (City) appoints CRW's Board of Directors (Board). However, the City bears no financial benefit or burden for CRW, and is not financially accountable for CRW. Therefore, the City does not include CRW in its financial statements as a component unit.

Basis of Presentation

All activities of CRW are accounted for within a single proprietary (enterprise) fund. Proprietary funds are used to account for activities similar to those found in the private sector where the determination of net income is necessary for sound financial administration. Costs of construction, debt reduction, and CRW administration are financed or recovered through user charges, administration charges, and income on investments held by CRW.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of CRW are charges for water and wastewater treatment

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

and conveyance systems services. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Basis of Accounting

CRW's financial statements are presented using the accrual method of accounting, under which revenues are recorded in the period that they are earned and expenses are recorded when the liability is incurred. CRW follows the accounting and financial reporting standards issued by the Governmental Accounting Standards Board (GASB).

The accounting and financial reporting treatment applied to CRW is determined by its measurement focus. The transactions of CRW are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operations are included on the balance sheet. Net position (i.e., total assets and deferred outflows of resources net of total liabilities and deferred inflows of resources) is segregated into "Net investment in capital assets"; "Restricted for" various purposes; and "Unrestricted" components.

Cash and Cash Equivalents

For the purposes of the statement of cash flows, CRW considers all highly liquid instruments with original maturities of three months or less to be cash equivalents.

Investments

With the exception of investment contracts, which are at contract value, CRW accounts for investments at fair value. CRW categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted market prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs.

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

Restricted Assets

Certain proceeds of revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable trust indentures or other agreements.

Capital Assets

Capital assets in service and construction in progress are carried at cost, if purchased or constructed. Assets acquired through contributions from developers or other customers are capitalized at their acquisition value at the date of donation. Acquisition value is the price that CRW would have paid to acquire an asset with equivalent service potential in an orderly market transaction at the acquisition date. Utility systems acquired from other governmental service providers are recorded at the purchase price, limited to fair value. Costs of studies that directly result in specific projects are capitalized. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

Maintenance and repairs, which do not significantly extend the value or life of property, plant, and equipment, are expensed as incurred.

Major outlays for capital assets and improvements are capitalized as projects are constructed. During the year ended December 31, 2017, interest expense of \$594,442, incurred during the construction phase of capital assets, is included as part of the capitalized value of the assets being constructed.

Depreciation expense for the Water Segment assets acquired prior to 1992 is calculated using a 2% annual rate. For acquisitions subsequent to this date, capital assets are depreciated using the straight-line method, over the estimated useful lives, as follows:

Land improvements	25 years
Water mains and related accessories	75 years
Water meter equipment	25 years
Buildings	50 years
Office equipment	5 to 20 years
Office furnishings	15 years
Operating equipment	10 to 50 years
Vehicles	7 years

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

Capital assets transferred to the Sewer Segment from the City, as part of the transition agreement (as further discussed in Note 4), are depreciated using the straight-line method, over the estimated useful lives, as follows:

Land improvements	30 to 40 years
Sewer mains and related accessories	40 to 100 years
Buildings and improvements	8 to 100 years
Infrastructure	50 to 110 years
Office equipment and furniture	5 to 15 years
Operating equipment	5 to 75 years
Vehicles	5 to 10 years

Debt Financing Costs

Discounts/premiums are being amortized over the respective life of each bond issue using the effective interest rate method. Losses on debt refundings (including swap termination fees) are deferred and are being amortized as a component of interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter. On the balance sheet, deferred losses on refundings are reported as deferred outflows of resources, and the unamortized discounts/premiums are reported as a reduction/addition from the outstanding bonds.

Unearned Revenue

Unearned revenue, consisting of monies received from a debt service forward delivery agreement, is being amortized to interest income over the life of the agreement using a method that approximates the interest rate method. Also included in unearned revenue are grant proceeds that have not been used for their intended purpose.

Net Position

Net position comprises the various net earnings from operating and non-operating revenues, expenses, and contributions of capital. Net position is classified in the following three components: Net investment in capital assets, restricted for various purposes, and unrestricted net position. Net investment in capital assets, consists of all capital assets, net of accumulated depreciation and reduced by outstanding debt that is attributable to the acquisition, construction, and improvement of those assets. Deferred outflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt and are also included in net investment of capital assets. Debt related to

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

unspent proceeds or other restricted cash and investments is excluded from the determination. Restricted for various purposes consists of net position for which constraints are placed thereon by external parties, such as lenders, grantors, contributors, laws, regulations and enabling legislation, including self-imposed legal mandates, less any related liabilities. Unrestricted consists of all other net position not included in the above categories.

Restricted Resources

When both restricted and unrestricted resources are available for use, it is CRW's policy to use restricted resources first, then unrestricted resources as they are needed.

Use of Estimates

Management of CRW has made a number of estimates and assumptions relating to the reporting of amounts and disclosures in order to prepare the financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

Pending GASB Pronouncements

In June of 2015, the GASB issued Statement No. 75, *"Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions."* This Statement addressed reporting by governments that provide other postemployment benefits (OPEB) to their employees and for governments that finance OPEB for employees of other governments. This Statement replaces the requirements of GASB Statement No. 45. The provisions of GASB Statement No. 75 are effective for CRW's December 31, 2018 financial statements.

In March of 2017, the GASB issued Statement No. 85, *"Omnibus 2017."* This Statement addresses practice issues identified during implementation and application of certain GASB Statements related to a variety of topics, including blending component units, goodwill, fair value measurement and application, and postemployment benefits. The provisions of GASB Statement No. 85 are effective for CRW's December 31, 2018 financial statements.

In May of 2017, the GASB issued Statement No. 86, *"Certain Debt Extinguishment Issues."* This Statement improves consistency in accounting and financial reporting for certain debt extinguishments. The provisions of GASB Statement No. 86 are effective for CRW's December 31, 2018 financial statements.

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

In June of 2017, the GASB issued Statement No. 87, "*Leases.*" This Statement improves the accounting and financial reporting for leases. The provisions of GASB Statement No. 87 are effective for CRW's December 31, 2020 financial statements.

In March of 2018, the GASB issued Statement No. 88, "*Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements.*" This Statement improves the information that is disclosed in the notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. The provisions of GASB Statement No. 88 are effective for CRW's December 31, 2019 financial statements.

In June of 2018, the GASB issued Statement No. 89, "*Accounting for Interest Cost Incurred Before the End of a Construction Period.*" This Statement improves financial reporting by providing users of financial statements with more relevant information about capital assets and the cost of borrowing for a reporting period. The resulting information also will enhance the comparability of information about capital assets and the cost of borrowing for a reporting period for both governmental activities and business-type activities. The provisions of GASB Statement No. 89 are effective for CRW's December 31, 2020 financial statements.

The effect of implementation of these Statements has not yet been determined.

2. Deposits and Investments

Pennsylvania Act 72 provides for investment of public funds in certain authorized investment types including U.S. Treasury bills; other short-term obligations of the U.S. and federal agencies; short-term commercial paper issued by a public corporation; banker's acceptance; general obligation bonds of the federal government, the Commonwealth of Pennsylvania or any state agency; insured or collateralized time deposits; and certificates of deposit. The statutes do not prescribe regulations related to demand deposits; however, they do allow the pooling of public funds for investment purposes.

CRW's permissible investments also include:

1. Negotiable certificates of deposit issued by a nationally or state-chartered bank, a federal or state savings and loan association, or a state-licensed branch of a foreign bank;

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

2. Shares of an investment company registered under the Investment Company Act of 1940 whose shares are registered under the Securities Act of 1933 and meet the following criteria:
 - a. The investments of the company are permissible investments of CRW;
 - b. The investment company is managed in accordance with 17 CFR 270.2a-7 (related to Securities Exchange Commission registered money market funds);
 - c. The investment company is rated AAAM or better by Standard & Poor's (S&P)
3. Local government investment pools (LGIP), either state-administered or developed through intergovernmental agreement legislation, provided the local government investment pool restricts investments to CRW's permissible investments as previously noted and rates AAAM-G or better by S & P.

CRW's prohibited investments include any type of swap, derivative instrument, or stock of a corporation.

Deposits

The deposits of CRW at December 31, 2017 were as follows:

Cash and cash equivalents:	
Unrestricted	\$ 39,042,983
Restricted under trust indentures and guarantee agreement	<u>28,128,910</u>
	<u>\$ 67,171,893</u>

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. CRW's deposits, which may include certificates of deposit, must be covered by the federal depository insurance corporation (FDIC) or collateralized. Collateral for CRW's certificates of deposit must be held in the name of CRW. Short-term deposits, not collateralized under FDIC, are to be collateralized with securities held by a third-party in accordance with Act No. 72 of the 1971 Session of the Pennsylvania General Assembly (Act), in which financial institutions were granted the authority to secure deposits of public bodies by pledging a pool of assets, as defined in the Act, to cover all public funds deposited in excess of federal depository insurance limits. Acceptable collateral for CRW's bank deposits includes only obligations of the U. S. Government, its agencies, and government sponsored entities rated at least in the two highest categories by two nationally recognized statistical rating organizations. The collateral, which may consist of pooled collateral, must be marked to market no less than

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

weekly, and CRW must receive monthly statements. As of December 31, 2017, CRW's book balance was \$67,171,893 and the bank balance was \$67,516,160. Of the bank balance, \$1,166,194 was covered by FDIC insurance and \$66,349,966 was collateralized under the Act.

Investments

The investments of CRW at December 31, 2017 were as follows:

Restricted:	
Money market funds	\$ 10,119,729
Investment contracts	6,300,000
U.S. Government agency obligations	1,088,242
U.S. Government obligations	<u>2,411,867</u>
Total	<u>\$ 19,919,838</u>

With the exception of the investment contracts which are at contract value, all investments are considered Level 1.

Custodial Credit Risk – Custodial credit risk is the risk that the counterparty to an investment transaction will fail and the government will not recover the value of the investment or collateral securities that are in possession of an outside party. CRW's policy is for cash equivalents to be invested in a local government investment program pool or money market funds. Investments in U.S. Treasury and U.S. government agency obligations are to be held by the financial institution in CRW's name. The financial institution must have a minimum capital equity balance of \$25 million and at least five years of operation. CRW's investment in money market funds are not exposed to custodial credit risk because the investments are not evidenced by securities in book entry or paper form. The remainder of CRW's investments are held by the counterparty's trust department or agent not in CRW's name for the benefit of and as security for the bondholders.

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

Concentration of Credit Risk - CRW permissible investments are restricted to avoid investment losses by a specific issuer. CRW has the following limits for both the type of investment and the maximum amount of an investment type for a particular issuer.

Investment Type	Maximum Allocation (at time of purchase)	Maximum Investment per Issuer (at time of purchase)
U.S. government securities	100%	N/A
U.S. government agencies and instrumentalities	100%	50%
General obligation Pennsylvania municipal bonds	10%	N/A
Bank certificates of deposit	50%	50%
Negotiable certificates of deposit	30%	10%
SEC-registered money market funds	100%	N/A
Local government investment pools	100%	N/A

More than five percent of CRW's investments are held as follows:

	Fair (Contract) Value	% of Total
Bank of America Investment Contracts	\$ 6,300,000	26.02%

Credit Risk – CRW has a formal policy that would limit investment choices to only those types of investments previously noted. CRW's money market funds and fixed income investments had the following level of exposure to credit risk as of December 31, 2017:

	Fair (Contract) Value	Rating
Money market funds	\$ 10,119,729	AAA
Investment contracts	6,300,000	BBB
U.S. Government agency obligations	1,088,242	AAA
U.S. Government obligations	2,411,867	AAA

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

Interest Rate Risk – CRW has a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. CRW's investments are to be diversified by limiting investments to avoid over concentration in securities from a specific issuer or business sector; limiting investments in securities that have higher credit risks; investing in securities with varying maturities; and continuously investing a portion of the portfolio in readily available funds such as LGIPs or money market funds to ensure that appropriate liquidity is maintained in order to meet ongoing obligations.

The following is a list of CRW's money market and fixed income investments and their related average maturities:

	Fair (Contract) Value	Investment Maturity (in Years)	
		Less than 1	Greater than 10
Money market funds	\$ 10,119,729	\$ 10,119,729	\$ -
Investment contracts	6,300,000	-	6,300,000
U.S. Government agency obligations	1,088,242	1,088,242	-

4. Due From/Due To the City

In November 2013, the CRW and the City entered into a transfer agreement related to the Sewer Collection System (transfer agreement) and a transition agreement related to the Water, Wastewater, and Stormwater Systems (transition agreement). In conjunction with the transfer and transition agreements, CRW and the City entered into a shared services agreement whereby the City agreed to perform certain services with respect to and for the benefit of the water system and combined sewer system and CRW agreed to perform certain services with respect to and for the benefit of the City's sanitation fund, Green Infrastructure Projects, and other initiatives. The services performed by the City under the shared services agreement relate to payment processing services, information technology services, operations and revenue services, and public works services. The services performed by CRW under the shared services agreement include revenue billing and collection functions for the City's sanitation fund including the implementation of a lockbox system. Each of these services, including the term of the services, is detailed in a shared services schedule incorporated into the shared services agreement.

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

CRW and the City, in advance of performing the services, are to prepare a budget for the total cost of the services and the total cost is to be agreed upon by both parties. Within 60 days after the end of the term of each shared service, CRW and the City are to reconcile the actual costs of providing the services to the budgeted costs. Payments due to either CRW or the City are payable within 30 days of the finalization of the reconciliation. A reconciliation of costs related to street sweeping for the years ended December 31, 2015 and 2016 was performed in August 2017 and the associated receivables and payables related to these years have been recorded.

Amounts due from/to the City consist of the following at December 31, 2017:

	Water Segment	Sewer Segment	Admin Segment
Due from City:			
Cash	\$ 242,648	\$ 237,716	\$ -
Investments - workers' compensation	-	726,340	-

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

5. Unearned Revenue

CRW had entered into a forward delivery investment agreement with a financial intermediary for the Water segment that resulted in an upfront payment of interest earned on amounts placed in the water debt service sinking fund. In exchange for a cash payment to CRW at the inception of the agreement totaling approximately \$1.765 million, the financial intermediary has the right, under the debt service forward delivery agreement, to invest the funds on hand in the sinking fund and retain the investment earnings. The amount received was recorded as unearned revenue in CRW's financial statements because the substance of this agreement effectively is to pay CRW currently for interest that normally would be earned in later years. A portion of the debt service forward delivery agreement was terminated with First Amendment to the Debt Service Forward Delivery Agreement effective April 2016 with the issuance of the 2016 Series A and Series B Water Revenue Refunding Bonds. As part of this refunding, CRW paid a \$401,000 termination fee. The termination fee, netted against the remaining unearned revenue, will be amortized over the remaining life of the agreement. The unearned revenue at December 31, 2017 is \$355,269.

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

6. Long-Term Debt

CRW has issued various revenue serial and term bonds and notes to finance various projects and refundings. A schedule of CRW's bonds and notes outstanding at December 31, 2017 follows:

	<u>Issue Amount</u>	<u>Maturity/ Mandatory Redemption</u>	<u>Interest Rates</u>	<u>Purpose</u>
2017 Sewer System Revenue Bonds	\$ 43,915,000	2018 - 2047	3.00% - 5.00%	1) Currently refund the Sewer Revenue Bonds, Series B of 2014; 2) fund certain miscellaneous capital expenditures with respect to CRW's sewer system; 3) fund a debt service reserve fund; and 4) pay the costs of issuance of the 2017 Bonds.
2016 Water Revenue Refunding Bonds Series A	\$ 49,735,000	2017 - 2029	2.00% - 5.00%	1) Currently refund the Water Revenue Refunding Bonds, Series A of 2002, Variable Rate Water Revenue Refunding Bonds, Series B of 2002, and Variable Rate Water Revenue Refunding Bonds, Series C of 2002; 2) currently refund the Water Revenue Refunding Bonds, Series of 2004; 3) advance refund a portion of the Water Revenue Refunding Bonds, Series of 2008; 4) fund a debt service reserve fund; 5) pay the costs of insuring a portion of the Water Revenue Refunding Bonds, Series A of 2016; and 6) pay the costs of issuance of the 2016 Bonds.
2015 Water System Improvement General Obligation Note	5,600,000	2017 - 2036	1.00%	Provide an enhanced geographic information system, restore reliability in the supervisory control and data acquisition system, and install a new water main and associated appurtenances.

In April 2018, CRW issued Water Revenue Bonds, Series of 2018 (Series of 2018 Bonds) in the amount of \$59,320,000, to 1) currently refund the outstanding Water Revenue Bonds, Series of 2008; 2) fund certain miscellaneous capital expenditures with respect to CRW's water system; 3) fund a deposit to the debt service reserve fund; and 4) pay the costs of issuance of the Series of 2018 Bonds.

In November 2017, CRW entered into a Sewer Revenue Note with PennVest for \$3,577,394 to fund the Headworks Screening Project. No amounts had been drawn down under this note at December 31, 2017.

7. Segment Information

CRW supports three separate segments. The Water Segment accounts for the provision of basic water service to customers of the Harrisburg Water System. The Sewer Segment accounts for the provision of wastewater collection, conveyance, and treatment to customers of the Harrisburg Wastewater System. The Resource Recovery Segment accounts for the completion of the activities at the Harrisburg Resource Recovery and Steam Generating Facility (resource recovery facility), which converted waste into energy. Selected segment information as of and for the year ended December 31, 2017 is as follows:

At December 31, 2017, CRW has a net position deficit in the Water segment, primarily because CRW has extended the length of its debt service at various times and the costs associated with those extensions exceeding the depreciation expense on the Water System. Management anticipates that the deficit will be reduced through future profitability improvements.

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

8. Commitments and Contingencies

CRW is involved in several lawsuits in the normal course of business. It is the opinion of management that any liabilities resulting from these proceedings would not materially affect the financial position of CRW at December 31, 2017.

CRW had guaranteed a line-of-credit on behalf of the National Civil War Museum limited to \$250,000. In November 2014, the National Civil War Museum refinanced the line-of-credit to a term loan. The term loan is also guaranteed by a second lien on the collection of artifacts. As required by the agreement, CRW has placed \$250,000 in a separate account and this amount is included on the balance sheet as restricted cash and cash equivalents. In the event the Bank utilizes CRW's deposit to pay sums due under the term loan, the National Civil War Museum agrees to reimburse CRW by monthly depositing an amount equal to one thirty-sixth of the amount drawn from the account, together with interest calculated on the unpaid balance thereof at prime rate plus one percent. The term loan had an outstanding balance of \$418,824 at June 30, 2017.

CRW has entered into various construction and professional services contracts related to the construction of the various facilities. The outstanding commitment under these contracts at December 31, 2017, excluding amounts in accounts payable, was approximately \$27.7 million.

In April 2015, CRW amended its administrative office lease. The amendment extended the lease for a five-year period, beginning in September 2015. The lease may be renewed at the end of the five-year period, provided that CRW gives notice six months prior to the expiration of the initial five-year period. CRW expended approximately \$200,000 under this lease during the year ended December 31, 2017. Future obligations under the amended lease are:

2018	\$	201,478
2019		203,785
2020		136,882
	\$	<u>542,145</u>

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

9. Risk Management

CRW is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which CRW carries commercial insurance. During the last three years, insurance settlements did not exceed insurance coverage.

10. Pension Plan

Plan Description

Pursuant to a transition agreement, water and sewer employees of the City transitioned to CRW during November 2013. Prior to the transition, the water and sewer employees participated in the City's non-uniform defined benefit plan which was administered by Pennsylvania Municipal Retirement System (PMRS), an agent multiple-employer Public Employees Retirement System (PERS). As part of the transition, CRW created a spin-off plan that is being separately administered by PMRS. The Plan has been established to cover all full-time employees. Employees become eligible for participation in a plan immediately upon employment. CRW's pension plan is a defined benefit pension plan controlled by the provisions of Resolution 2013-015 adopted pursuant to Act 15 of 1974. The Plan participates in the PMRS who acts as a common investment and administrative agent for municipalities in the Commonwealth of Pennsylvania. PMRS issues a publicly available financial report that includes financial statements and required supplementary information for the PERS. The report may be obtained by writing to Pennsylvania Municipal Retirement System, P.O. Box 1165, Harrisburg, Pennsylvania 17108-1165, or via PMRS' website.

Benefits Provided

Act 205 of 1984, the Municipal Pension Plan Funding Standard and Recovery Act, grants the authority to establish and amend the benefit terms to CRW's Board.

Normal Benefit – Active members are eligible for normal retirement at age of 65. The benefits provided by the plan are calculated at 2.0% per year of credited service multiplied by the final average annual salary. In no case may the benefit exceed 75% of the final average annual salary. Final average salary is based upon the annual average compensation paid during the highest three years of employment. A member is 100% vested after five years of credited service.

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

Early Retirement Benefit – Early retirement may be taken at age of 55 with 10 years of service. The benefit will be actuarially reduced for each year or partial year prior to normal retirement age that early retirement takes place.

Survivor Benefit – If a member is eligible to retire at the time of death, their beneficiary receives the present value of the accrued benefit.

Disability Benefit – In the instance of a service related disability, a 50% disability benefit, offset by workers' compensation benefits, is provided to a member who is unable to perform gainful employment. In the instance of a non-service related disability, a 30% disability benefit is provided to a member who has at least 10 years of service and who is unable to perform gainful employment.

Cost-of-Living Adjustments – CRW has the option to award postretirement adjustments based on investment performance.

Plan Membership

Membership of the Plan consisted of the following at the most recent actuarial valuation date of December 31, 2016:

Active employees	115
Inactive employees and beneficiaries currently receiving benefits	1
Inactive employees entitled to but not yet receiving benefits	<u>3</u>
Total	<u><u>119</u></u>

Funding Policy and Contributions

All full-time employees are required to contribute five percent of their annual covered salary to the Plan, with an option to contribute up to 15%. CRW's contributions to the Plan are governed by Act 205 which mandates minimum actuarial funding based upon the Plan's biennial actuarial valuation. During the year ended December 31, 2016, CRW made a contribution to the Plan in the amount of \$216,967. The MMO for the year ended December 31, 2016 was \$240,302. During the year ended December 31, 2017, CRW made a contribution to the Plan in the amount of \$501,688. The MMO for the year ended December 31, 2017 was \$301,467. The 2017 contribution is reported as a deferred outflow of resources at December 31, 2017.

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

Changes in the Net Pension Liability

The changes in the net pension liability of CRW for the year ended December 31, 2017 were as follows:

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
Balances at December 31, 2016 (based on the measurement date of December 31, 2015)	\$ 10,367,135	\$ 9,742,688	\$ 624,447
Changes for the year:			
Service cost	654,728	-	654,728
Interest	603,374	-	603,374
Differences between expected and actual experience	(483,726)		(483,726)
Changes of assumptions	406,858	-	406,858
Contributions - employer	-	216,967	(216,967)
Contributions - employees	-	388,245	(388,245)
PMRS investment income	-	593,887	(593,887)
Market value investment income	-	200,706	(200,706)
Benefit payments	(22,836)	(22,836)	-
Administrative expense	-	(31,035)	31,035
Net changes	<u>1,158,398</u>	<u>1,345,934</u>	<u>(187,536)</u>
Balances at December 31, 2017 (based on the measurement date of December 31, 2016)	<u>\$ 11,525,533</u>	<u>\$ 11,088,622</u>	<u>\$ 436,911</u>
Plan fiduciary net position as a percentage of the total pension liability			<u>96.2%</u>

As noted previously, during the year ended December 31, 2017, CRW made an additional contribution to the Plan in the amount of \$200,000. Although the additional 2017 payment is not included in the change in net pension liability as presented above, the impact of this additional payment decreases the net pension liability as follows:

Net pension liability reported above	\$ 436,911
Additional payment during 2017	<u>(200,000)</u>
Post-payment net pension liability	<u>\$ 236,911</u>

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

Actuarial Assumptions - The total pension liability was determined by an actuarial valuation performed on January 1, 2017, with liabilities measured at December 31, 2016, using the following actuarial assumptions, applied to all periods in the measurement:

Actuarial assumptions:

Investment rate of return	5.25%
Projected salary increases	2.8% - 7.05%*
* includes inflation rate of 3%	
Cost-of-living adjustments	2.8%, subject to plan limitations

Actuarial assumptions based on PMRS Experience Study for the period January 1, 2009 to December 31, 2013

Preretirement mortality:

Males: RP 2000 Male Non-Annuitant table projected 15 years with Scale AA
Females: RP 2000 Female Non-Annuitant table projected 15 years with Scale AA and then set back 5 years

Postretirement mortality:

Males: RP 2000 Male Annuitant table projected 5 years with Scale AA
Females: RP 2000 Female Annuitant table projected 10 years with Scale AA

Changes in Actuarial Assumptions –The actuarial assumptions noted above were used for the prior measurement date of December 31, 2015 except for investment return assumption for municipal assets decreased from 5.50% to 5.25%.

Long-Term Expected Rate of Return – The PMRS System’s (System) long-term expected rate of return on plan investments was determined using a building-block method in which best-estimates of expected future real rates of return are developed for each major asset class, for the portfolio as a whole, and at different levels of probability or confidence. There are four steps to the method used by the System and an in-depth description of the process, including the anticipated rate of return by asset class, can be found at www.pmr.state.pa.us. Based on the four-part analysis, the PMRS Board established the System’s long-term expected rate of return at 7.5%. The rationale for the difference between the System’s long-term expected rate of return and the discount rate can be found at www.pmr.state.pa.us.

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

Discount Rate – The discount rate adopted by the PMRS Board and used to measure the individual participating municipalities’ total pension liability as of December 31, 2016 was 5.25%. The projection of cash flows for each underlying municipal plan, used to determine if any adjustment to the discount rate was required, used the following assumptions: 1) member contributions will be made at the current contribution rate, 2) participating plan sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate, and 3) the System’s long-term expected rate of return will be used in the depletion testing of the projected cash flows. Based on those assumptions, the PMRS pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate – The following presents the net pension liability of the Plan calculated using the discount rate described above, as well as what the Plan’s net pension liability (asset) would be if it was calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher than the current rate:

<u>1% Decrease (4.25%)</u>	<u>Current Discount Rate (5.25%)</u>	<u>1% Increase (6.25%)</u>
<u>\$ 2,233,688</u>	<u>\$ 436,911</u>	<u>\$ (1,097,750)</u>

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2017, CRW recognized pension expense of \$383,917. At December 31, 2017, CRW reported deferred outflows of resources and deferred inflows of resources related to its pension from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 1,190	\$ 429,979
Changes of assumptions	361,652	60,171
CRW contributions subsequent to the measurement date	501,688	-
Net difference between projected and actual earnings on pension plan investments	<u>223,441</u>	<u>-</u>
Total	<u>\$ 1,087,971</u>	<u>\$ 490,150</u>

The differences in CRW's expected and actual experience and changes of assumptions are recognized over the average expected remaining service lives of active and inactive members. The difference between projected and actual earnings on the pension plan investments is recognized over five years. CRW contributions subsequent to the measurement date at December 31, 2017 will be recorded as a reduction to the pension liability during the year ending December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions at December 31, 2017 will be recognized in pension expense as follows:

<u>Year ending December 31,</u>	
2018	\$ 76,912
2019	76,911
2020	64,526
2021	(55,220)
2022	(15,078)
Thereafter	<u>(51,918)</u>
	<u>\$ 96,133</u>

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

11. Other Postemployment Benefit Plan

Plan Description

In addition to the pension benefits described in Note 10, CRW provides certain postemployment healthcare benefits to its employees who transferred from the City to CRW on November 4, 2013 through one single-employer, defined benefit OPEB plan. All other CRW employees are not eligible for OPEB. This OPEB plan does not issue a separate report.

Eligibility - Any employee who transferred from the City to CRW on November 4, 2013 that was eligible for the City's Non-Uniformed Pension Plan benefits and has attained age 60 with at least 20 years of service.

Benefits - Medical, prescription drug, dental, vision, and life coverage are provided to the member, along with a spouse and/or eligible dependents. CRW pays the full premium for life insurance in the amount of \$5,000 for the member only. CRW pays the full medical premium for single coverage less 2% of the member's final salary. The member and spouse are eligible until the member reaches Medicare age. Life insurance and reimbursements for Medicare Supplement coverage will continue for the member's life.

If a member is disabled after completion of 20 years of service, attained age 55 and completed 20 years of service, or attained age 65 and completed 15 years of service, CRW pays 60% of the medical premium for single coverage until the member reaches Medicare age. Otherwise, the member must pay 100% of medical premium for single coverage. For any coverage other than single, the member must pay any difference between the premiums. The member must pay the full premium for prescription drug, dental, and vision coverage. Upon reaching Medicare age, CRW will reimburse a maximum monthly amount specified in the table below for a Medicare Supplement plan.

2018	\$ 270
2019	280

2025	340
2026 and later	350

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

Funding Policy and Annual OPEB Costs

CRW's contribution is based on projected pay-as-you-go financing requirements. For the year ended December 31, 2017, CRW contributed \$6,786 to the OPEB plan.

CRW opted to not fully fund the OPEB contribution and will continue to fund the annual OPEB cost on a pay-as-you-go basis.

CRW's annual OPEB costs (expense) for the plan is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of government accounting standards. The ARC represents the amount needed to fund the cost of benefits attributed to the current year, plus an amortized portion of unfunded liability.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the ARC are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The schedule of funding progress presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of the valuation and on the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities consistent with the long-term perspective of the calculation.

Note: Valuation as of January 1, 2013 represents initial valuation for the Plan.

12. Restatement

CRW is party to an agreement that requires a true-up of costs and subsequent application of credits to certain customers. Prior to the year ended December 31, 2017, CRW applied those credits prospectively and recognized the reduction at the time the credits were applied. During the year ended December 31, 2017, CRW determined that it should recognize the credits during the period the credits were earned. As such, beginning net position was reduced by \$1,996,481, from \$49,615,616 originally reported to \$47,619,135

CAPITAL REGION WATER

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2017

as restated. Had the customer credits been applied during the year the credits were earned, CRW's change in net position for the year ended December 31, 2016 would have been \$14,192,510, \$141,178 higher than originally reported.

13. Subsequent Events

CRW entered into various construction and professional services contracts in 2018 related to the construction of the various facilities. The commitment under these contracts is approximately \$21.5 million.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – PENSION PLAN

1. Actuarial Methods and Assumptions

The information presented in the required supplementary information was determined as part of the actuarial valuation at the date indicated. Methods and assumptions used to determine the contribution rate required under Act 205 for the year ended December 31, 2016 (presented as the subsequent year on the preceding schedules) are as follows:

Actuarial valuation date	1/1/2015
Actuarial cost method	Entry age normal
Amortization method	Level dollar closed
Remaining amortization period	Based on periods in Act 205
Asset valuation method	Based on the municipal reserves
Actuarial assumptions:	
Investment rate of return	5.5%
Projected salary increases	Age related scale with merit and inflation component
Underlying inflation rate	3.0%
Postretirement cost-of-living adjustment increase	3%, subject to plan limitations
Preretirement mortality:	
Males: RP 2000 with 1 year set back	
Females: RP 2000 with 5 year set back	
Postretirement mortality:	
Males and females: Sex distinct RP 2000 Combined Healthy Mortality	

CAPITAL REGION WATER

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – PENSION PLAN

2. Changes in Actuarial Assumptions

The December 31, 2015 assumptions were based on the PMRS Experience Study for the period covering January 1, 2009 through December 31, 2013 issued by the actuary in July 2015 first effective.

The December 31, 2016 investment return assumption for municipal assets decreased from 5.50% to 5.25%.

CAPITAL REGION WATER

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

YEAR ENDED DECEMBER 31, 2017

1. Basis of Presentation and Summary of Significant Accounting Policies

The accompanying schedule of expenditures of federal awards (schedule) presents the expenditures of all federal awards programs of Capital Region Water (CRW) using the accrual basis of accounting. Expenditures reported on the schedule are recognized following, as applicable, either the cost principles in the U.S. Office of Management and Budget Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments (A-87)*, or the cost principles contained in the Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*.

CRW has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

2. Relationship to Basic Financial Statements

The information in this schedule is presented in accordance with the requirements of the Uniform Guidance. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, CRW's basic financial statements.

3. Determination of Federal Expenditures

The amount of federal expenditures for the Environmental Protection Agency loans represents the expenditures incurred under the loans during the year ended December 31, 2017. The Environmental Protection Agency requires that the current year expenditures incurred under the loans be reported on the schedule rather than the beginning balance of the loans.
