

General:

This Addendum shall be considered part of the Request for Qualifications/Proposals dated April 23, 2019 for professional services related to the DeHart Dam Improvements Design.

Questions & Responses:

1. *Q: Can you please provide the contract terms conditions you intend to use for this project?*

Please review the CRW form of agreement for professional design services provided with this response. Revisions will be necessary to tailor the scope and terms to the proposed work. CRW welcomes critical feedback with your proposal submission to expedite finalization of contract terms.

2. *Q: Is Capital Region Water planning to provide cost proposal form or would you like the bidders to develop their own form?*

Bidders should provide their own proposal form based on the outline of services in the RFQ. If bidders propose an alternate scope or approach, the fee breakdown should be modified accordingly.

3. *Q: Is it acceptable to include additional resumes for team members not included in the qualifications submittal in an appendix to the proposal?*

Yes. The proposal stage allows submission of a refined organization chart. If submitting additional resumes, note if project team changed from the qualifications stage.

4. *Q: Would you like the reference letters to be addressed to Capital Region Water or to the bidders?*

Reference letters should be addressed to the bidders.

5. *Q: Is the piezometer data available?*

The piezometer data collected to date is attached to this addendum.
