

## **Regular Meeting**

**In Attendance:**

**Board:**

J. Marc Kurowski, P.E., Chairperson  
Crystal A. Skotedis, CPA, CFE, Vice Chairperson/Treasurer  
Garvey Presley, Jr., Secretary  
Andrew M. Enders, Assistant Secretary/Treasurer  
Alisa E. Harris

**Staff:**

Charlotte Katzenmoyer, Chief Executive Officer  
Douglas E. Keith, Chief Financial Officer  
David W. Stewart, P.E., Director of Engineering  
Michael T. Doweary, Director of Administration  
Jess Rosentel, Director of Wastewater Operations  
Mike McFadden, Director of Water Operations  
Tanya Dierolf, Director of Strategic Initiatives  
Michelle Mancuso, Water Operations Supervisor  
Kodi Webb, Water Quality Administrator  
Tammie Sheaffer, Office Manager  
Karen McKillip, Archivist  
Claire Maulhardt, City Beautiful H2O Program Manager  
Micaela Swart, Project Engineer  
Julie Peters, Controller  
Alesha Vonada, Accounting Manager

**General Counsel:**

Scott Wyland, Esquire (Salzmann Hughes, P.C.)

**Others:**

Ed Ellinger, P.E. (HRG)  
Andrew Kreider, P.E. (Gannett Fleming)  
Cindy Zawrotuk, P.E. (AKRF)  
Paul Rosol (WRA)  
John Hammell, P.E. (CDM Smith, Inc.)  
Frederick Douglas (Cosmos Technologies, Inc.)  
Holly Douglas (Cosmos Technologies, Inc.)  
Kurt Knaus (Ceisler Media & Issue Advocacy)  
Paul McNamee, P.E. (KCI Technologies, Inc.)  
Tim Dean, P.E. (AECOM)

Chuck Hauser (ARCADIS)  
Herb Higginbotham (HDR Engineering)  
Isaac Gaylord, Esq. (City of Harrisburg, Assistant Solicitor)  
Tiffany Baldon (City of Harrisburg)  
Melanie Cook (City Resident)  
Evelyn Hunt (City Resident/Community Ambassador)  
Stephen Vaughn (Pennsylvania Municipal Retirement System)

**I. Call to Order - Pledge of Allegiance - Roll Call:**

The meeting was called to order by Chairperson Kurowski at 6:15 PM.

Chairperson Kurowski noted that all Board members are present.

**II. Chairperson's Announcements:**

- A.** An executive session under Section 708(a) of the Sunshine Act was held today at 4:00 PM to discuss personnel matters and potential claims against CRW with General Counsel.
- B.** Today's meeting was rescheduled from Wednesday, October 23, 2019 to Tuesday, October 22, 2019 at 6:00 PM. Public Notice of the rescheduled meeting was advertised in accordance with the Sunshine Act. The Advertisement will be attached to the Minutes as Exhibit "A".
- C.** A Special Meeting is scheduled for Wednesday, November 13, 2019 at 5:00 PM at the Lincoln School, 1601 State Street, Harrisburg, Pennsylvania for presentation of CRW's 2020 Budgets and to take action on any other business that may come before the Board. This meeting is open to the public.
- D.** The next Regular Meeting is scheduled for Wednesday, November 20, 2019 at 6:00 PM in the Locust Court Building, 212 Locust Street, Harrisburg, Pennsylvania. This meeting is open to the public.

### III. Presentation

#### **Changes to Master Prototype Agreement with Pennsylvania Municipal Retirement System (PMRS) Stephen Vaughn (6:17 PM - 6:22 PM)**

Mr. Vaughn spoke to the Board regarding enhancements to the Municipal Pension Plan with PMRS since 2015. These are:

- A death benefit that allows employees to be immediately eligible for the death benefit, otherwise the employee would have only been allowed death benefits at the age of early or normal retirement, not at the time of death.
- Eliminating the transferability of other pension plans and dates of service by employees into CRW's Municipal Pension Plan with PMRS. This means that new employees would no longer be permitted to transfer prior pension plans into CRW's Pension Plan with PMRS. PMRS offers varying degrees of Pension Plans and if employees were coming from a lower benefit plan into CRW's Pension Plan (which is among the better plans in the State), employees could obtain a sizeable increase in their benefits if CRW permitted employees to transfer into its Plan.

After the presentation, Chairperson Kurowski opened the floor to questions by Board members. It was noted that allowing employees to transfer other pension plans into CRW's Pension Plan creates an unfunded liability that CRW would be required to fund. This is the first time that PMRS is allowing municipal organizations to select whether or not to eliminate this option.

Mr. Presley voiced concerns about not allowing new employees the opportunity to transfer prior Pension Plans into CRW's Pension Plan. He would like to keep the enhancement of that benefit with the employees. Mr. Vaughn explained that this is a policy decision that needs to be made and PMRS' responsibility is to point the issues out to their clients and that each municipal organization is to make that choice as the employer.

### IV. Committee Reports:

**Budget and Finance Committee:** Ms. Skotedis noted that the Budget and Finance Committee met on October 11th and highlighted the following:

- Preliminary 2020 Budget meetings are scheduled;
- Presentation of the Final Draft of the 2020 Budget is scheduled to occur at the Special Meeting on November 13, 2019 at 5:00 PM;
- Final 2020 Budget to be approved at the Regular Monthly Meeting on November 20, 2019 at 6:00 PM;
- CRW's Capital Improvement Projects are being formed by project and year so financing of the projects can be appropriately budgeted with rates; and
- Possible development of a Customer Assistance Program to assist lower income residents.

**Personnel and Administrative Committee:** Ms. Skotedis reported that the Committee met on October 15th and highlighted the following:

- Continues its search for a bi-lingual employee for Customer Service;
- Renewal of Annual Health Insurance is gearing up for open enrollment;
- Development of a Wellness Program;
- The Personnel and Finance Committee members recommend the approval of the two Resolutions on tonight's Agenda relative to the enhancements of the PMRS Pension Plan; and
- She thanked Mr. Vaughn for his presentation to the Board this evening.

**Operations/Engineering Committee:** Mr. Kurowski reported the Committee met last month and highlighted the following:

- Front Street Interceptor Project is almost complete. The project is expected to be completed by October 31<sup>st</sup>, weather permitting. Final cleanup will be done in the Spring of 2020, but it is expected the Park will be cleaned up before the marathon;
- Third Street Green Infrastructure Project – once the project has been turned over from the contractor to CRW, CRW will take over responsibility for maintenance of the rain gardens, bump-outs, etc., however that hasn't occurred yet.
- ENGINEERING, Item E., Solids Handling and Biogas Improvements Project - while this project is very technical in nature, he stated this project is an example of CRW's staff and consultants finding opportunities to generate non-rate revenue for CRW. Tonight's action is to award the engineering and design component of that project to ARCADIS to get CRW to permitting and construction. While the project is very complex, the project will be replacing equipment and adding some additional components. The public needs to know that this results in substantial cost savings to CRW's ratepayers.

**Legal/Risk Management Committee:** Mr. Enders reported the Committee will meet on October 24<sup>th</sup> so he will report next month.

**Public Outreach / M/W/DBE Committee:** Ms. Harris reported the Committee will meet on October 24<sup>th</sup> also so she will report next month.

## **V. Management Report:**

The monthly Management Report was provided to the Board in advance of the meeting and posted on CRW's website.

Mr. Presley noted that CRW reported a significant number of low leaks within the Drinking Water Division for the past month. He congratulated the Drinking Water Division on this major accomplishment, and asked Mr. McFadden to pass the information onto his staff.

Mr. Presley inquired as to how the "Motley CReW" performed in the National Wastewater Competition. Mr. Rosentel stated this was the first year this team represented CRW and they came in 32<sup>nd</sup> out of 48 teams and are already gearing up for how to improve for next year. Mr. Presley congratulated the AWTF staff for their accomplishments.

Mr. Enders asked for the timeframe when CRW is to hear back on the FEMA Grant Programs that were applied to on October 9, 2019? Mr. Doweary will check on this.

Mr. Kurowski stated CRW recently issued a press release announcing that CRW was awarded \$13,000,000 from PENNVEST for Green Stormwater Infrastructure. PENNVEST continues to be a formidable partner with CRW and this is a big win for CRW's ratepayers. He thanked everyone who was involved.

There were no comments provided by Ms. Harris or Ms. Skotedis.

## **VI. Minutes of Previous Meetings:**

A motion was made by Mr. Presley, seconded by Ms. Skotedis, that the Minutes of the September 25, 2019 Regular Meeting be approved as presented.

The motion was unanimously approved.

**VII. Modifications or Deletions to the Agenda:**

A motion was made by Mr. Kurowski, seconded by Ms. Skotedis, that the following motion be removed from tonight's Agenda under Engineering Item C. and that the Agenda is approved, as modified:

**C. 2019 Street Restoration Project – Change Order No. 1:**

**Motion:** The Board authorizes the Director of Engineering to execute Change Order No. 1 with Shiloh Paving & Excavating Inc. for additional paving on Derry Street in an amount of \$36,000 and a 75-day extension to the contract time. Funding Source: Wastewater #80800801-80100-00026 – Collection System Rehabilitation.

The motion was unanimously approved.

**VIII. Public Comment - Agenda and/or Stormwater Fee Items (3 Minutes):**

Mr. Kurowski announced if anyone was present this evening regarding the Stormwater Fee to come forward now since today is the last day for the extended public comment period. Melanie Cook (City Resident) congratulated CRW on the \$13,000,000 Loan with PENNVEST. She knows that CRW is working very hard to achieve accomplishments like this on behalf of their ratepayers.

She thanked CRW for their presentation at the October 15<sup>th</sup> City Council Meeting. It was very informative for the citizens. She requested CRW provide a comment and response document that the public would have a chance to review before a final vote is taken. That is something that will give citizens a level of comfort since there are still outstanding issues. When does CRW plan to roll out a customer assistance program to help lower income ratepayers?

On October 15<sup>th</sup>, several residents spoke to City Council and made it clear they are adamantly opposed to the sale of the assets. With Act 12 and the fair market value opportunities that financially stressed communities have, she questioned whether Act 12 is the motivating factor behind the decision of individuals who are content to sell your assets. She is hopeful that CRW will consider putting forth a comment and response document allowing the citizens and others to read that document before it proceeds to final vote by CRW's Board.

Mr. Kurowski stated that CRW intends to provide a public comment and response document before a final vote is taken on the Stormwater Fee Proposal.

**IX. Old/New Business:**

**Executive:**

A motion was made by Mr. Kurowski, seconded by Ms. Skotedis, that the following items be approved by consent, Executive Items A. and B.:

**A. Resolution No. 2019-038 - Amend Pension Plan Documents with PMRS (Cash Balance Plan):**

**Motion:** The Board adopts Resolution No. 2019-038 to amend its Municipal Pension Plan (Cash Balance Plan) with the Pennsylvania Municipal Retirement System (PMRS) effective January 1, 2020. A copy of the Amended Pension Plan (Cash Balance Plan) shall be attached to the Resolution as Exhibits "A, B and C" and incorporated herein. Resolution Nos. 2019-038 and 2019-039 repeals and nullifies Resolution No. 2014-029 previously adopted December 17, 2014. Funding Source: N/A.

**B. Resolution No. 2019-039 - Amend Pension Plan Documents with PMRS (Defined Benefit Plan):**

**Motion:** The Board adopts Resolution No. 2019-039 to amend its Municipal Pension Plan (Defined Benefit Plan) with the Pennsylvania Municipal Retirement System (PMRS) effective January 1, 2020. A copy of the Amended Pension Plan (Defined Benefit Plan) shall be attached to the Resolution as Exhibits "A, B and C" and incorporated herein. Resolution Nos. 2019-038 and 2019-039 repeals and nullifies Resolution No. 2014-029 previously adopted December 17, 2014. Funding Source: N/A.

The motion was approved by majority vote with Mr. Presley opposed to the motion.

**Engineering:**

A motion was made by Mr. Kurowski, seconded by Mr. Presley, that the following items be approved by consent, Engineering Items A. and B.:

**A. 2019 Water System Improvements Project - Change Order No. 2:**

**Motion:** The Board authorizes the Director of Engineering to execute Change Order No. 2 with Rogele, Inc. for additional work at Walnut and Herr Streets and adjustments of actual quantities of bid items used in the amount of \$47,335.75 and a 45-day increase to the contract time. Funding Source: Water #60800801-80100-00015 - Water Main Replacement Engineering.

**B. Cameron Street Water Main Lining Project – Phase 1 – Change Order No. 1:**

**Motion:** The Board authorizes the Director of Engineering to execute Change Order No. 1 with Dewcon Inc., for a 75-day time extension due to justifiable delays for the 2019 Cameron Street Water Main Lining Project in an amount of \$0.00. Funding Source: Water #60800801-80100-00081 – Wtr Cameron Street Water Main Lining.

The motion was unanimously approved.

A motion was made by Mr. Kurowski, seconded by Mr. Presley, that the following item be approved, Engineering Item D.:

**D. Task Order 2018-24-03: Engineering Services for 2019 Water System Improvements Project with Gannett Fleming:**

**Motion:** The Board authorizes the Director of Engineering to execute Task Order 2018-24-03 with Gannett Fleming for additional construction phase services in the amount not-to-exceed \$18,400. M/W/DBE Commitment: \$0.00/0%. Funding Source: Water #60800801-80100-00015 - Wtr Water Main Replacement.

The motion was unanimously approved.

A motion was made by Mr. Kurowski, seconded by Mr. Presley, that the following item be approved, Engineering Item E.:

**E. Engineering Services for AWTF Solids Handling and Biogas Improvements with ARCADIS:**

**Motion:** The Board authorizes the Director of Engineering to engage the professional services of ARCADIS for design and bidding services for the AWTF Solids Handling and Biogas Improvements Project as outlined in ARCADIS's Scope of Services, in the amount not-to-exceed \$1,195,000. M/W/DBE Commitment \$155,946/13.0%. Wastewater #80800801-80100-00023 – Ww Cogeneration Improvements Study.

Mr. Presley thanked ARCADIS for including professional engineering services within the scope of their M/W/DBE participation. Mr. Kurowski reiterated that this is a very beneficial project in line with CRW's mission on environmental issues and for finding innovative ways of keeping costs down for CRW's ratepayers.

The motion was unanimously approved.

A motion was made by Mr. Kurowski, seconded by Mr. Presley, that the following item be approved Engineering Item F.:

**F. Resolution No. 2019-037 – Operation and Maintenance Agreement – Stormwater Facilities and Best Management Practices between the Commonwealth of Pennsylvania, Department of General Services and Capital Region Water:**

**Motion:** The Board adopts Resolution No. 2019-037 authorizing the Chairperson and Secretary to execute the Operation and Maintenance Agreement for Stormwater Facilities and Best Management Practices Project No. DGS 948-82 a/k/a Renovations to Forum Building, Harrisburg, Dauphin County, Pennsylvania entered into between the Commonwealth of Pennsylvania, Department of General Services and Capital Region Water. Funding Source: N/A.

Mr. Stewart explained the purpose of the Resolution advising that the Commonwealth would be generating more stormwater as they utilize some best management practices on site. This agreement documents that the Commonwealth will maintain them, otherwise, CRW will have the right to come in and address the issues. As the program progresses, the Board will begin to see more Operations and Maintenance Agreements for Best Management Practices come before them in the future.

Upon discussion, it was noted that based on the level of design, customers may be eligible for stormwater credits. These types of Operation and Maintenance Agreements will soon become typical practices as we transition responsibility from the City of Harrisburg to CRW, allowing CRW authorization to go in, inspect and possibly improve the project, if needed.

The motion was unanimously approved.

**Operations:**

A motion was made by Mr. Kurowski, seconded by Mr. Presley, that the following item be approved, Operations Item A.:

**A. Purchase of Vehicle for Wastewater:**

**Motion:** The Board authorizes the Controller's procurement of one 2019 Ford Escape 4WD Sedan (G-72) from Hoffman Ford for the Wastewater Division in the amount of \$23,512. Funding Source: Wastewater #80000804-80400-00027 – Ww Vehicular Equipment.

The motion was unanimously approved.

A motion was made by Mr. Kurowski, seconded by Mr. Presley, that the following item be approved, Operations Item B.:

- B. Project Number 2019-210: Precipitation & Wastewater Flow Monitoring Services:**  
**Motion:** The Board authorizes the CFO to award Project Number 2019-210 to CSL Services, Inc., and to execute the Agreement in the amount of \$524,880. Funding Source: Wastewater #80251521-52106 – Ww Fmtc Precipitation Monitoring.

A discussion was held when Ms. Harris requested clarification on the length of the contract and whether it covered equipment and services for a full three years? Mr. Rosentel advised that this contract covers equipment and services for three years, however, all of those services are not currently required by CRW. There is a possibility with the Consent Decree that CRW will be required to perform additional services for grease monitoring and CSO sites, so to be proactive, CRW put out bids on a contingency basis that could be added in, if needed. The \$524,880 covers all three years plus additional monitoring that may be required by USEPA. If the additional services are not required, the contract could be less.

Ms. Harris stated the motion does not identify any M/W/DBE participation. She stated concerns about approving a contract for three years without a written M/W/DBE commitment from the contractor. Mr. Rosentel noted that CSL Services, Inc. advised that TFE Resources is a WBE/MBE contractor identified to be used to meet their M/W/DBE participation. Mr. Rosentel confirmed that prior to the meeting, CSL Services, Inc. confirmed they are willing to work with TFE Resources as their WBE/MBE contractor. While a specific M/W/DBE percentage has not been identified, WBE/MBE participation amounts will be reflected by the contractor.

Mr. Kurowski questioned when CRW would know whether this type of service should be performed in-house or not. Mr. Stewart stated that CRW doesn't know the answer yet, however, the issue is being discussed. Since USEPA and PADEP are pressing the instrumentation of flow monitoring, CRW will want to provide proof that the work CRW is performing is actually reducing CSO activity. He stated that CRW is currently in the process of finding out what is right for us based on historical background information.

The motion was unanimously approved.

**X. Public Comment - Non-Agenda Items:**

Evelyn Hunt (City Resident and Community Ambassador):

- She wants CRW to make it clear what rate increases will be and what services will be impacted as some residents think that only the stormwater fee will be impacted by the 2020 Budget.
- \$25/fee for putting up a sign for water shut-off. CRW has an average of 24 per month. When you take 24 over 21,000 water customers, that's .001% so CRW is doing very well collecting money if your shut-off rate is that low. However, she'd like to know more about the \$25 shut-off fee such as:
  - Is it based on the amount they owe?
  - Is it based on how many months they haven't paid?
  - People will understand the shut-off process if they know how it is determined.
- Thank you for acknowledging changes wanted so that businesses would pay their fair share, while acknowledging that it wasn't fair for businesses to get a discount, and that residential customers would be required to pay the same fee. The community appreciates that.
- Appreciates CRW taking the high ground at the October 15<sup>th</sup> City Council meeting. However, she would like for CRW to correct misinformation reported by PennLive, because even though it was reported inaccurately, many people will believe it to be accurate.
- She questioned if CRW will continue to give consideration to entry level positions for students coming out of high school if they don't take the program offered through HACC and if CRW has an education program. Mr. Rosentel stated that CRW does have an education program and explained CRW's position on the HACC Program.
- She stated some discrepancies that appear on the internet, not CRW's website, regarding the number of customers that CRW serves. Google states CRW has approximately 60,000 customers, however, Wendy Shollenberger stated earlier today that CRW has approximately 21,000 customers. Is there any way for that information to be corrected?
- She believes CRW needs to do more to educate its customers about how to read their water and sewer bills so that customers are not surprised when CRW bills them for actual/estimated usage when there could have been a problem going on for months and the customer never reported the issue. If accounts are being billed the same low amount of usage month after month, perhaps CRW needs to investigate the issue to determine if the meter is working properly. The public may not be educated to understand this, which could end up being a problem for them in the future.

Melanie Cook (City Resident). She also addressed concerns over billing issues at CRW which are surfacing on NextDoor.com. Does CRW have a billing workshop or Frequently Asked Questions page on your website where residents can go to rather than calling Customer Service about billing issues. Negative social media tends to make people speculate and form an opinion on the motivation of actually addressing your customer's questions and concerns. She recommends CRW put a link on your website with an actual contact name and phone number to call. There may be some push back so customers are asking you to obtain someone with more knowledge to address those types of questions.

## **XI. Board Comments:**

Ms. Harris:

- Stormwater Fee – CRW has been involved in nearly 50 meetings and discussions, 25 of them have been public meetings where CRW has attended as a guest or were hosted by CRW.
- CRW met with 15 out of 16 top impervious surface owners.
- Additional 10 meetings with the next largest impervious surface owners. Goal was for CRW to initially meet with the top 50 impervious surface owners so CRW met with the customers who would suffer the largest impact of stormwater fees so they were fully aware about maintenance, credit program, appeal process, etc.
- Today ends the extended public comment period on the Stormwater Fee Proposal. CRW received 89 public comments to date.
- Commended CRW's staff for providing more information in other languages in order to engage customers on this issue.
- Other forms of communication include Facebook posts, along with Spanish versions, in order to get the word out.
- Attended and/or supported organizational functions other than the Harrisburg City Council Meeting on October 15, 2019.
- CRW attended the NAACP Annual Dinner and the Pennsylvania Diversity Coalition Forum.
- CRW hosted Harrisburg City Council members for tours of the Drinking Water and Advanced Wastewater Treatment Facility on Saturday, October 19, 2019. The tours were well attended. Council Members were very engaged and asked lots of questions. These types of interactions go a long way in improving relationships between CRW and the City of Harrisburg.
- Board members and staff have also interacted with the Mayor since the October 15<sup>th</sup> meeting to keep communication open.
- CRW's goal is to protect our customers whether it is public health, or to make sure the services we provide are affordable.

- Please know that this Board is working hard for our ratepayers and appreciates the public holding us accountable for the appropriate forum and tools for our customers to provide public comments to increase CRW's exposure so it is easier for our customers to be engaged in the process.
- CRW has been very busy and while there is never really an end to all of it, she is very proud of the CReW, Tanya, Tremayne and Claire and everyone at the table for all of their efforts with the tours and for fielding tough questions on the spot.

Mr. Enders. No comments.

Mr. Presley:

- In the two years he has been on the Board, he has seen a number of changes with very diverse viewpoints. The changes in Management and promotion of Mike McFadden and Jess Rosentel to positions of Directors gives CRW a very gifted team.
- He congratulated Tanya Dierolf who has been recently promoted to the position of Director of Strategic Initiatives and welcomed her to the table.

Ms. Skotedis:

- Thanked Alisa Harris and Karl Singleton for running the Pennsylvania Diversity Coalition luncheon.
- CRW heard a lot of the challenges that M/W/DBE business owners face in working in communities.

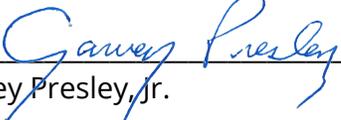

Mr. Kurowski:

- Thanked everyone who provided public comments during the past four months.
- Securing public comments and hearing public feedback on how we are doing and what can we do to implement and address those comments is very helpful for how we can improve upon our services.

## **XII. Adjournment:**

A motion was made by Mr. Presley, seconded by Ms. Skotedis, for the Board to adjourn the meeting at 7:26 PM. The motion was unanimously approved.
