

Ensure Financial Stability	
Reconciled Bank Account Balances	Refer to attached Reconciled Bank Account Balances as of 2/28/2023.
Monthly Financial Statements	Provided separately to Board of Directors.
Monthly Financial Dashboard	Provided separately to Board of Directors.
AP Check Reconciliation Register	Provided separately to Board of Directors.
Capital Improvement Projects for Drinking Water	Provided separately to Board of Directors.
Capital Improvement Projects for Wastewater	Provided separately to Board of Directors.
Grant Management	Refer to attached Grant Management Report.
Ensure Revenues are Consistent with System Usage	
Water Shut-offs	There were 0 water shut-offs for non-payment, One (1) was turned back on after payment from previous months' shut offs, and 11 service shut-off requests.
Repair/Replace Meters/MXUs/Batteries	Drinking Water Distribution staff replaced 23 water meters, replaced 323 batteries, and 43 MXUs.
Reduce Wet Weather Impacts to Infrastructure, Community, and Receiving Waters	
Negotiate with PADEP/U.S. EPA/DOJ on Past and Future Practices	The Modification of the Partial Consent Decree was lodged on 2/13/2023 and placed on the Federal Registry for public comment. Public comment is open until 3/20/2023.
Develop Necessary Planning for Implementation of Green Infrastructure	No update.
Joint Pollutant Reduction Plan - Collaborate with Suburban Partners on MS4	No update.
Obtain and Comply with Individual MS4 Permit	No update.
Operate Facilities with a High Standard of Care	
Permit Compliance	The Drinking Water department met all primary and secondary Safe Drinking Water Act permit parameters for the month. The AWTF met all NPDES permit parameters for the month of February. No Sanitary Sewer Overflow or Dry Weather Overflows were reported.
Notice of Violations (NOVs)	The Drinking Water Department received a Notice of Violation in February. All required samples were obtained and results were within all water quality parameters, but a subcontracted lab failed to report results to PADEP within the required timeframe. This late reporting violation will simply require publication in next year's Annual Consumer Confidence Report (CCR). There were no NOVs received by the Wastewater department in February.
Preventative Maintenance	The Drinking Water Maintenance group conducted all scheduled preventative maintenance for the month to the water treatment plant equipment. Specific facility maintenance activities are outlined within the Drinking Water Department Monthly Report. The Wastewater department completed all regularly scheduled preventative maintenance in the month of February.

CCTV	A total of 7,180 feet (1.36 miles) of sewer pipes were assessed by CCTV footage during the month of February. A total of 2,783 feet (0.52 miles) of pipe were flushed as well.
Incident Response	Wastewater responded to seven (7) backup and overflow calls from residents during the month of February. CRW was liable for none.
Geographic Information System (GIS)	<ul style="list-style-type: none"> • Seventeen (17) Pennsylvania One Call tickets were completed. Eight (8) required maps and nine (9) had no CRW-owned facilities in the project area. • Bi-weekly meetings were held with KCI Technologies, Inc. • Progress continues with the development of the ESRI "Lead Service Line Inventory Solution". • Approximately 150 assets were GPS'd. • In person GIS update sessions were held twice at AWTF.
Cityworks	<p>[REDACTED]</p> <p>[REDACTED]</p> <p>[REDACTED]</p> <p>[REDACTED]</p> <p>[REDACTED]</p> <p>[REDACTED]</p> <p>[REDACTED]</p> <p>[REDACTED]</p> <p>[REDACTED]</p>
Asset Management	<p>Phase 1, year 2 active tasks per the assigned Asset Management Roadmap Implementation Groups (RIG):</p> <p><u>Decision Making Capital Planning RIG</u></p> <ul style="list-style-type: none"> • Completed Design Requirements, finalized asset naming convention language for inclusion in CRW record drawing requirements, design documents and integrated CRW's Strategic Asset Management Plan. • Future state will be to pilot use of newly developed Construction and Design Requirements into project(s). <p><u>Information System Data Management RIG</u></p> <ul style="list-style-type: none"> • Future Commissioning and Decommissioning asset workflows are under review to align with recently completed Design Requirements. <p><u>Operations & Maintenance RIG</u></p> <ul style="list-style-type: none"> • The collection system Asset Management Plan (AMP) schedule is being adjusted to accommodate time for additional data matters. • Rehabilitation and Replacement Schedule of costs completed and will be utilized in creating a 20-year capital improvement plan for the collection asset management plan. <p><u>Organizational Framework RIG</u></p> <ul style="list-style-type: none"> • Not started. • The lead service line inventory working group held a monthly meeting on 2/21/2023, Work is in progress. • Met with Strategic Initiatives team on 2/23/2023 to continue steps for future tracking AM stakeholder interaction levels of service, performance metrics and reporting requirements. • Met with Diversity Program Manager on 2/22/2023. As a result, process improvements were made to tracking asset management professional services.
Development Review Summary	For details, see attached Development Stormwater Management Review Summary spreadsheet for March.

Undertake Capital Improvement Projects - Refer to attached Capital Improvement Projects Report	
Professional & Contractor Services	<p>Recommend Board approval of the following Resolutions, Task Orders, Change Orders and Agreements:</p> <p>Drinking Water:</p> <ul style="list-style-type: none"> • Resolution No. 2023-005 Authorization for Cost Sharing Agreement with PennDOT for Cameron/Maclay Intersection Project • Resolution No. 2023-006 Authorization for Cost Sharing Agreement with PennDOT for I-83 Expansion Project • Task Order 2023-06-01: Engineering Services for GIS Support [REDACTED] • Cameron Street Water Main Improvements Project Phase 4 – Recommendation of Award [REDACTED] <p>Wastewater:</p> <ul style="list-style-type: none"> • Basic Ordering Agreement and Task Order 2023-08-01: Engineering Services for CBH2OPP Water Quality Services [REDACTED] <p>Stormwater: None.</p>
Stormwater O&M Agreements	Recommend Board approval of the following: None.
AWTF Primary Digesters Rehabilitation	The contractors are addressing punch list items and site cleanup. Final change orders are expected for the April Board meeting.
AWTF Energy Recovery Improvements	No update. Permit applications are being reviewed by PADEP.
Front Street Pumping Station Improvements	The contractors are addressing punch list items and site cleanup. Final change orders are expected for the April Board meeting.
WSC Flocculator Equipment Replacement	A substantial completion inspection was held on 3/2/2023. The contractors are addressing punch list items.
Undertake Renewal and Replacement Projects	
2022 Water System Improvements	Installation of water main continues in the Sylvan Terrace neighborhood.
Cameron Street Water Main - Phase 4	Bids were received 3/7/2023. Refer to the agenda for a recommendation of award.
2023 Sewer System Improvements (Excavation)	The contractor continues construction with inlet replacement along 15th Street.
2023 Sewer System Improvements (Trenchless)	The contractor continues to provide submittals for approval before physical construction can begin.
Arsenal Boulevard Sewer	No update. We are working with property owners to acquire temporary and construction easements needed before advertising the project.
Front Street Interceptor Rehabilitation Phase 2	The bypass pipe is installed and in service. The contractor plans to begin cured in place piping (CIPP) lining activities on 4/3/2023.
Water Facility Maintenance	Drinking Water Maintenance staff performed repairs to various process units as described in the Drinking Water Department Monthly Report.
Wastewater Facility Maintenance	The Wastewater Maintenance group completed various repairs throughout the AWTF, pumping stations, and at the North Front Street office building throughout the month of February. A narrative is provided in the Wastewater Department Monthly Report.
Sinkhole Program	One sinkhole was investigated by CRW in the month of February. CRW was liable for none.
Inlet Cleaning	A total of 136 stormwater inlets were cleaned during the month of February, and 134 stormwater inlet inspections were performed.

Operate as an Efficient, Sustainable and Resilient Water Utility	
DeHart Property Stewardship	In accordance with the DeHart Property Forest Management Plan, a regeneration harvest is underway in MUs 20, 34, 36, and 37 (approximately 155 acres). Harvest will improve forest health and release regeneration of a more desirable understory. Annual forest management planning meeting was held 2/21/2023.
Sustainability	Development of a Request for Proposals (RFP) is underway for a solar project.
Internal Communications	Intranet (Sharepoint) site continues to be used. The Q1 internal newsletter, The Daily Flow, was released. The Q1 all employee meeting was held on 1/31/2023.

DRINKING WATER DEPARTMENT
MONTHLY REPORT

Containment wall construction for the Lime Slurry project.

February 2023

100 Pine Drive, Harrisburg, PA 17103 | 888-510-0606
capitalregionwater.com

Plant Operations

The Capital Region Water (CRW) Drinking Water department met all Federal Safe Drinking Water Act water quality standards for the month of February. However, a late-reporting Notice of Violation (NOV) was received due to late subcontracted lab reporting results to PADEP. More information is available in the Water Quality section of this report.

Specific water quality results are summarized in Exhibit A. A total of 202.799 MG, averaging 7.243 MGD was withdrawn from the water supply source for treatment. As shown in Exhibit B, a total of 202.279 MG, averaging 7.224 MGD, of finished drinking water was pumped to the distribution system.

The DeHart water source was in service 28 days. The Susquehanna River water source was in service for zero days.

The DeHart Watershed had below average rainfall in February (Exhibit C) and the DeHart reservoir water level increased (Exhibit D). An estimated 369.54 MG of water was released from DeHart reservoir to Clark Creek, averaging 14.78 MGD for the month. This downstream flow, which is received by remote flow monitoring from the weir location and actual staff gauge readings, was in compliance with the flow required by the State Water Allocation Permit (Exhibit E).

The Flocculator project has been completed on the A Basin side and the B Basin side. The Lime Slurry project is underway now.

Plant Maintenance

The Maintenance team performed approximately 63 preventative maintenance work orders and one corrective maintenance work order for the month of January using the Cityworks maintenance management system for all water treatment plant equipment, pumping stations and fleet vehicles.

- The DeHart Dam watershed was patrolled daily and maintained.
- The Lime Silo Demolition project is complete.
- The Maintenance team install blank caps on the two existing 40k gallon carbon feed tanks.
- The Maintenance team constructed 70 feet of containment wall forming for new concrete containment walls.
- The Maintenance team installed temporary bypass valving and chemical feed lines for the upgrades of the existing Orthophosphate system.

-
- The new Aluminum Sulfate Chemical Injection system is currently under testing for commissioning and DEP approval.
 - The Maintenance team is installing several electrical upgrades for the Lime Slurry and Rotork actuator installations.
 - The Lime Silo Tank Slurry feed system project is in progress.
 - The Maintenance team replaced two process sampling pumps on the A and B side of the system.
 - The Maintenance team continues to do snow removal and perform other winter duties at the Water Service Center, pump houses, and DeHart Dam facility.
 - The Maintenance team continues to maintain the distribution and maintenance fleet vehicles and equipment.

Distribution

The Distribution group completed the following work during the month of February:

- Repaired five leaking services during the month totaling 41,760 gallons of unmetered water.
- Repaired one main break – 2,836,746 gallons of unmetered water.
- Completed 576 work orders.
- Completed 430 water, sewer, and stormwater locates.
- Write up service cards for 8,000 non existing cards.
- Work with contractors on several water, sewer, and stormwater Capital Improvement projects.

Water Quality

In addition to overseeing the operation of both the accredited and process laboratories, the Water Quality Administrator also:

- Ensured collection of regulatory samples for Total Coliform, and E. Coli.
- Received first round of UMCR5 samples back. ND for Lithium and all PFOs/PFOAs.
- In January, all samples were collected and met reporting criteria. The subcontract laboratory neglected to upload data to PADEP Greenport by February 10, 2023, resulting in a late reporting violation for CRW. The laboratory has been fired and a NOV will have to be posted in the CCR for 2023.

WASTEWATER DEPARTMENT MONTHLY REPORT

New AWTF Operator, Lillian Dolan.

February 2023

1662 South Cameron Street, Harrisburg, PA 17104 | 888-510-0606
capitalregionwater.com

Overview

In February, Wastewater prepared and submitted several annual regulatory reports that were due on March 1st, including:

- Annual PAG-08 Report for Beneficial Use of Biosolids
- Sara Title III, Tier II Report for Hazardous Chemicals
- Annual Air Quality Emissions Report to DEP.

Support for the Chapter 94 Municipal Waste Load Management Report and Semi-Annual Consent Decree Report will continue through March.

A good deal of time was also dedicated to the Asset Management Program (AMP) with several meetings focusing on development of the Asset Class Plan and the Collection System AMP.

A major step was taken toward the strategic goal of generating a widespread benchmarking program across CRW. We will utilize the AWWA's Utility Benchmarking Survey to serve as a set of key performance indicators to measure our performance against the results of other water utilities. The "CRew BUS" working group developed an online survey program to collect the 400 plus data points from various departments. The results will be databased so that CRW can set goals and track progress to achieving them year-after-year.

Operations

During the month of February, the AWTF met all monthly average NPDES permit requirements. No Sanitary Sewer or Dry Weather Overflows were reported.

Hydraulic loading to the AWTF averaged 16.8 million gallons per day (MGD). The treatment process achieved removal reductions of 97.4 percent CBOD, 98.5 percent Suspended Solids, 61.3 percent Phosphorus, and 94.3 percent Ammonia (Exhibit A).

The Contract Waste Hauling program collected \$54,021.15 in revenue from 1,615,520 gallons discharged (Exhibit G). Landfill clients are continuing to discharge leachate which is the primary source of revenue the last few months. Nutrient loading is the main concern with additional leachate waste streams, but the process is working well at removing it to stay under permit limits.

In recent months, adjustments to the Divert Food Slurry pumping system, along with other process adjustments, has resulted in progressively lower effluent nitrogen concentrations. As this progress continues it will allow us to generate more Nitrogen Credits for the 2023 Water Year, which will end on September 30th.

The Cogeneration facility experienced an average run time of 58 percent in February. Revenue is estimated at \$7,367.85 on 63,000 Kilowatt-hours generated for the month. The increase in runtime is due to mechanical failures that were repaired from the previous month.

Laboratory

- Received new accreditation certificate for 2023 from DEP.
- Updated timeline for Colilert Fecal Coliform and E. Coli analysis with DEP, plan to be updated by the end of March.
- Testing more variables within BOD/CBOD analysis for low recovery root cause.
- Bench sheets are uploaded into WIMS, beginning calculation setup.

Pretreatment

- Pretreatment Inspection with EPA was conducted and went smoothly. We are still waiting for final report.
- Finished updating all fourth quarter SMR data from IU's and organized all logbooks for 2022.
- Started Swatara Landfill's IU permit renewal.
- Worked with Waste Management to renew biosolids hauling permit for Cumberland County Landfill.
- Acquired Conestoga Landfill as a new waste hauling client via Eldredge, Inc.

Plant Maintenance

- Installed new laboratory sampler at Chamber D. This completes a comprehensive update of all composite samplers throughout the AWTF process. One replacement sampler head is immediately available in inventory in case of failure.
- Continued to re-lamp/repair all lighting fixtures throughout the facility.
- Serviced standby generator full load test at Market Street and Spring Creek Pump Stations.
- Replaced outlet valve and check valve on Plant Drain Pump No. 3.
- Installed new Gorman Rupp pump at the Plant Drain Pump Station.
- Repaired linear motion mixer on Primary Digester No. 1.
- Performed ten vehicular repairs in preparation for state inspections.
- Provided weekly maintenance for JCB loader.
- Performed daily service on vehicles such as replacing bulbs, batteries, tires, lube oil and filters.
- Performed maintenance tasks per request at 3003 NFS offices.

Field Construction

- Repaired 32 inlets in various locations in the city.
- Blanked 13 inlets in various locations in the city.
- Repaired 5-feet of storm water pipe at 2310 N. Fourth Street.
- Repaired 10-feet of storm water pipe at Camp and Jefferson Streets.
- Started inlet box replacement at Central and Bob Streets.
- Repaired interceptor manhole under the Mulberry Street Bridge.

Field Operations

- Total CCTV footage of sewer pipe assessed this month was 7,180 feet (1.36 miles).
- Total of pipe flushed this month was 2,783 feet (0.52 miles).
- Responded to seven backup and overflow calls from residents. CRW was liable for none.
- Responded to one sinkhole call. Wastewater was liable for none.
- Cleaned 136 stormwater inlets.
- Inspected 134 stormwater inlets.
- Performed CCTV assessment and flushed flat alleys in the Kensington Street area.
- Flushed line for Grease Pit No. 1.
- Cleaned Pista Grit No. 3.
- There were no Dry Weather or Sanitary Sewer Overflows to report.

Environmental Compliance

- Completed five inspections of FOG dischargers.
- Issued two new FOG discharge permits.
- Issued two FOG-related Notice of Violation (NOVs).
- Provided education packet to four newly identified FOG dischargers (either new business or previously unidentified). Spent time educating business owners/representative and provided them with a FOG Best Management Practices Manual, copy of Section 7.5 of the updated Wastewater and Stormwater Rules and Regulations, discharge permit request, cleaning log sign-off sheet, and introduction letter.
- Two investigations were conducted during the month of February:
 - CRW's Environmental Compliance Inspector was contacted by PADEP regarding a complaint of ongoing illicit discharges at the Harrisburg City Public Works building. A site visit was conducted and the complaint unsubstantiated.
 - CRW's Water Distribution crew discovered an incident in the 1600 block of Market Street of raw wastewater being pumped onto the street from a resident's basement. The prohibited discharge was investigated, and Harrisburg City Codes was contacted regarding the health

issue. The discharge was discontinued immediately after the tenant was reached, and the source was due to a broken pipe. Repairs were conducted the same day by the tenant/landlord.

Street Sweeping

- Received five complaints this month and all complaints have been resolved.
- Completed 752.57 miles of scheduled street sweeping within the City of Harrisburg. Due to a new methodology developed by CRW's GIS Team, a more accurate count of miles that are swept is now available for reporting. This counts a street that may have been swept multiple times due to severity of debris.
- Water usage was approximately 8,800 gallons this month.
- Continued to assist cleaning storm inlets in scheduled sweeping areas.
